

- 1 Digital Marketing (How to attract customers)
- 2 Digital & Social Selling (How to convert and grow customers)

Let's break everything clearly.

● PART 1: DIGITAL MARKETING FOUNDATION

✓ Section 1 – Course Introduction

This is just orientation.

You learn:

- Why digital marketing is important
- What skills you'll gain
- How businesses grow online

👉 Think of this as the roadmap before the journey.

✓ Section 2 – Fundamental Concepts of Digital Marketing

This is the **base foundation**.

1 Introduction to Digital Marketing

Digital marketing = promoting products using:

- Social media
- Google search
- Websites
- Email
- Mobile apps

Goal: **Get customers online.**

You also learn:

- Customer acquisition = how to bring new customers
-

2 History of Digital Marketing

How marketing evolved:

Newspaper → TV → Internet → Social Media → AI marketing

Now marketing is:

- Data-driven
 - Personalized
 - Automated
-

3 Digital Culture & Customer Thinking

Important mindset shift:

Old marketing:

“How do we sell our product?”

New digital marketing:

“How do we solve the customer’s problem?”

You learn:

- Customer centricity
 - Product thinking
 - Digital-first mindset
-

4 Where Digital Marketing is Going

Future trends:

- AI
- Chatbots
- Automation
- Personalization
- Big data

👉 Businesses must adapt or fail.

5 Global Impact

Digital marketing removes borders.

Small business in India → can sell to USA, Europe.

It creates:

- Global competition
 - Global opportunities
-

● PART 2: CUSTOMER LIFECYCLE

This is very important.

A customer journey has 4 stages:

1 Acquisition

How do customers find you?

Methods:

- Social media ads
- Google ads
- SEO
- Content marketing

Goal: Bring traffic.

2 Engagement

Now they know you.

You:

- Post content
- Send emails
- Interact on social media

Goal: Build trust.

3 Conversion

Turn interest into sales.

Examples:

- Offer discounts
- Free trials
- Clear call-to-action

Goal: Customer buys.

Onboarding, Retention & Expansion

After purchase:

- Support customer
- Keep them satisfied
- Upsell or cross-sell

Goal: Long-term relationship.

PART 3: MARKETING TECHNOLOGY

You learn tools behind digital marketing:

- Mobile marketing
- IoT (connected devices)
- Analytics (tracking data)
- Combining offline + online marketing

Example:

Customer sees billboard → searches online → buys in app.

PART 4: FUTURE OF DIGITAL MARKETING

Focus:

- AI-driven marketing
- Predictive analytics
- Personalization

- Automation

Marketing will become more intelligent and data-based.

● PART 5: DIGITAL & SOCIAL SELLING

Now we move from marketing → selling.

Marketing = attract

Selling = close deals

Section 7 – Attract Customers (Digital Selling)

You learn:

- What is digital selling?
- Difference between digital selling & social selling

Digital Selling

Using digital tools to sell.

Social Selling

Using social media platforms to build relationships before selling.

Building Digital Credibility

Very important.

You learn:

- Create strong LinkedIn profile
- Build personal brand
- Show expertise
- Increase social trust

Because today:

People buy from trusted experts.

● Section 8 – Connect with Customers

You learn:

- Digital research
- Buyer personas

Buyer Persona

It is a detailed description of your ideal customer:

- Age
- Job
- Problems
- Goals
- Pain points

Why important?

So you can customize your message.

Section 9 – Engage with Customers

You learn:

- Content marketing
- How to create valuable content
- How to start sales conversations

Goal:

Make customers feel understood.

Section 10 – Convert & Grow Customers

Advanced strategies:

- Campaign calendar planning
- Personalized messaging
- Managing digital sales campaigns
- Handling negative experiences
- Growing existing customers

Most businesses focus only on getting customers.

Smart businesses:

Focus on keeping and growing them.
